Description

Now you can rely on the expertise of the lawyer whose name has become synonymous with drunk driving defense. In **Drunk Driving Defense**, Lawrence Taylor covers every step of the police action and legal process, from the Breathalyzer and field sobriety tests to witness preparation and jury instructions.

With his detailed guidance you'll be able to:

- Overcome chemical evidence presumptions
- Identify nonspecific blood alcohol analysis
- Weigh effects of acetone and acetaldehyde
- Prove false instrument readings caused by radio frequency interference and other phenomena
- Expose physiological defects of horizontal gaze nystagmus
- Establish grounds for impeachment of the arresting officer
- And moreThe Fifth Edition features a wealth of practice materials, including:
 - Forms used by police and other agencies
 - Examples of successful motions used by experienced defense attorneys
 - verbatim cross and direct examinations of police officers, eyewitnesses, and chemical experts
 - Checklists
 - Suggested voir dire and opening and closing statements
